ABOUT ME

BSc (Hons) in Information Technology graduate specializing in Data Science, with a CGPA of 3.1/4.0. Passionate about developing and designing technology-driven solutions to real-world problems, with a strong interest in data engineering, data analytics, and AI. Currently working on an Agentic AI-based travel planning project, gaining hands-on experience in building intelligent, data-driven solutions. Eager to apply my technical knowledge, problem-solving skills, and passion for data to contribute to impactful engineering solutions.

EDUCATION

Sri Lankan Institute Of Information Technology — Malabe , Sri Lanka
Bachelors in Information Technology (Specializing in Data Science) — **October 2026**
CGPA: 3.1 / 4.0

EXPERIENCE

AI-Thario : Forward Deployement Engineer (2025 - 2026)

- *Architected a comprehensive rental lifecycle system, automating operations from customer onboarding to final financial settlements.*
- *Built an interactive analytics dashboard featuring real-time data visualizations (utilizing Chart.js/ApexCharts) for revenue trends and material utilization.*

PROJECTS

RentalPro: Rental Management System
(React/Node.js/MySQL/Namecheap)

- RentalPro is a web-based system to manage rental properties, customers, and rental information
- Performed manual testing and troubleshooting to ensure system functionality and reliability.
- Assisted with application deployment, configuration, and production support.

Ask Git: Git Repository Management Tool
(FastAPI/Uvicorn/React/Openai/Langchain/Chroma)

- Ask Git is a tool to chat with any GitHub repository using RAG (Retrieval-Augmented Generation)

HospitalDW: Hospital Data Warehousing & BI Solution
(SQL Server/Power BI/Visual Studio)

- HospitalDW is a system to store and manage hospital data and create easy-to-understand reports. Used SQL Server and Power BI to track appointments, billing, departments, and overall hospital performance.

KMP Pharmacy: Pharmacy Management System
(Mongo, Express.js, React, Node.js)

- Developed a personalized Pharmacy Management system to manage pharmaceutical products, maintain product and supplier information, track stock levels, and record sales

SAD : Sales Analytics Dashboard
(Power BI)

- Created a comprehensive dashboard using the Sample Superstore dataset to visualize sales performance and regional trends.

LEADERSHIP EXPERIENCES

Data Science Student Community of SLIIT - Executive Committee (Treasurer)
Faculty of Computing Student Community of SLIIT - Committee
IEEE Student Community - Lead of Volunteer Management Team
AIESEC in Sri Lanka - Business Manager 2025
AIESEC in SLIIT - International Relations Manager

CERTIFICATES

Power BI for Beginners - Simplilearn
Data Science Orientation - Coursera
Introduction to R - Great Learning
SQL for Data Science - Great Learning
Microsoft Azure Essentials - Great Learning
Python for Beginners – University of Moratuwa

SKILLS SUMMARY

Language:	Python, R, SQL, Java, C#
Data Science:	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, ETL (SSIS), OLAP
Tools:	Power BI, Excel, Powerpoint, Langchain
Database:	MySQL, SQLite, MongoDB, ChromaDB
Platforms:	PyCharm, Jupyter Notebook, Visual Studio Code, Intellij IDEA
Soft Skills:	Rapport Building, Excellent Communication, People Management
